Defendants Awaiting Arraignment Before Transfer

It is the policy of our court to arraign all defendants timely. However, depending upon the time when a defendant who also has county level charges pending was arrested it may not be possible to conduct arraignment on instanter charges before the county transport arrives for pickup. In giving deference to the delays involved in defendants having the opportunity to receive arraignment and bond settings at the county it is the policy to allow defendants, after confirming their identity, to sign their citations and be released to the county transport in order to expedite their potential access to bond.

It should be emphasized to all defendants that despite their being taken into custody that any charges for which they are receiving a citation will need to be addressed with the White Settlement Municipal Court upon their release.

Craig Magnuson  
Presiding Judge
